Opening of the Canal.

We have information from Lockport to the effect that the Canal will be opened between here and Joliet, as early as the 12th inst. The time of opening of the whole line will depend upon the weather. At present, but little can be done toward repairs, in consequence of the continuance of the frost in the banks, and the high water in the streams. It is hoped the whole line may be in operation as early as the 25th inst.

Hon. Lyman Trumbull.

This distinguished gentleman is at the Tremont House, where we are glad to learn, he will remain a few days, during which time the Republicans of Chicago will have an opportunity to make his personal acquaintance. Senator TRUMBULL, in his career in Washington, has won golden opinions from men of all parties; and more than this, he has earned the gratitude and admiration of every Republican in Illinois, by his unflinching advocacy of the great truths which are the solid foundations of the Republican party.

The Corn Market.

Yesterday, as will be seen by our market reports, Corn was offered at 45 and 47c. per bushel on board, the last of May, and buyers were plenty at 50c on board the last of July. Good confidence is felt in it at these rates. Before the European war, in 1853, Corn was worth 39 and 40c on board, 1st of April; 1st of June, when the heating season was at its height, 48c on board was the price, and last of July and 1st of August 62 1-2 and 63c was paid. But that season Corn was plenty, and the canal was open and Corn received a week before the 1st of April. In 1852 the canal did not open till 28th of March. Freights in 1853 were lower even than they promise to be this season. April 1st, 1853, Corn was taken hence by lake to Buffalo at 6 1-2c, and oats at 5 1-2. The last of July freights was so low that no charters were made, and vessel owners preferred to try their own cargoes, and took their chances by making up fair notes by the advancing market. The question then is, with the evident scarcity of Corn likely to be in this market, whether it will not again be worth 62 1-2c the last of July.

Startling Rumors.

The reader will not fail to notice a despatch, which we copy in another column, from the Missouri *Democrat*, said to be the substance of what was sent over the wires to New Orleans, on Saturday last. We do not know how much importance is to be attached to its statements; but that there is now, and has been since the nomination of Mr. BUCHANAN, a steady purpose on the part of his Southern supporters, to let no opportunity pass, unimproved, which promises success in fomenting a quarrel with Spain, during which they may seize upon Cuba, we think there can be no doubt. This rumor of a new Mexican treaty, by which the country will be involved in the ripening difficulty between the Mexican and Spanish governments, may be the opening scene in that great tragedy, of which the Ostend Manifesto—Mr. BUCHANAN's own work—is the prologue. Let us hope, for the honor of the American name and the peace of the world, that the agitators who have convulsed this country by their activity in extending the area of Slavery upon Republican soil, may be so hotly pressed by the true Democracy at home, that they will not have the temerity to endeavor to extend their conquests to countries over which the American flag does not float. We await further intelligence.

CITY ITEMS.

SATANIC.—Our "Imp" complains, on reading the article headed the "Black leg in cattle," that it is a part of the old story, about the Devil's being in the Swine.

ON DIT.—We are informed that Mr. JOHN DEAN and his wife, *nee* Miss Boker, arrived in this city yesterday. Mr. Dean is at his brother's here, and, we learn, intends making Chicago his future home.

FARE REDUCED.—Passengers, for New York city, via Michigan Central, Great Western (Canada) and New York Central Railroads, can purchase through tickets for twenty dollars, a considerable reduction.

CHICAGO CATHOLIC INSTITUTE.—By invitation James A. Mulligan, Esq., will deliver the closing lecture before the Catholic Institute at South Market Hall on Friday evening, April 3d.

REAL ESTATE SALE.—Mr. E. H. Cummings recently sold lots four and five, block forty-six, in Carpenter's Addition for $7,000. About a year ago Mr. C. purchased the same property for $2,400, making a profit of nearly three hundred per cent. per annum.

THEATRICAL.—The *New Yorker*, says Mrs. T. S. HAMBLIN, (formerly Mrs. Shaw,) commences an engagement in this city on May 4th. Mrs. HAMBLIN is everywhere recognised as actress of great merit. Mrs. H. will play at North's Amphitheatre.

COMMON PLEAS JUDGE.—It is rumored that the Border Ruffians seeing three Republicans are out for Judge will run B. S. Blackwell for that office. If the Republicans undertake to run *three* candidates, the Border Ruffian candidate is sure of election. A word to the wise, &c.

BOAT CLUBS ATTENTION.—The members of the different Boat Clubs of this city are one and all respectfully requested to attend a meeting to be held at the Tremont House, on Thursday evening, at half past seven o'clock, for the transaction of important business.

LUTHERAN CHURCH.—We learn that Rev. THOMAS W. KEMP, well known as an able and eloquent divine, and a zealous missionary, is about to organize a Lutheran Church in this city. Due notice will be given of the time and place of meeting, on Sunday next.

ACCIDENT.—An Irishman was severely injured yesterday, near the Rock Island Depot. He was engaged in repairing a car, and was not perceived by the engineer of a train backing down to couple on to the car he was at work upon, and was badly jammed. We could not learn his name.

FATAL ACCIDENT.—A sailor by the name of John Clancy, while at work upon the schooner "Genoa," in the South Branch, fell from the mast head upon the deck, killing him instantly. Deceased was a native of Westport, Ireland, and has two brothers in the South. Coroner Hansen held an inquest, and a verdict of accidental death was rendered.

PERSONAL.—Hon. LYMAN TRUMBULL, Illinois' noble and faithful Senator, arrived in our city yesterday, on his way home from Washington, and has taken rooms at the Tremont House. We learn that Mr. TRUMBULL will spend several days in our city. His manly and effective efforts in behalf of freedom and humanity, have endeared him to the freemen of Illinois.

FORGERY.—Yesterday morning, Abram Cooper was brought before Justice Milliken upon a charge of altering a check, for $2 to $52, drawn by Mr. [illegible] Hutchins upon the Metropolitan Bank of Parlin & Co. The check was paid and Cooper arrested by Messrs. Bradley & Co. The accused was committed, in default of $1000 bail, for ten days for further examination.

THEATRE—MR. HACKETT.—The theatre was crowded to its utmost capacity by an appreciative audience last evening, to witness Mr. Hackett's rendering of his favorite character, *Sir John Falstaff*. That it was admirably played we need not state, for Mr. Hackett is recognized upon both continents as the best living representative of Shakespeare's bulky knight. [illegible] "Rip Van Winkle" [illegible] "His Last Legs."

LIBERTY HOSE COMPANY.—We notice that this new and excellent fire company are soliciting material aid from our citizens in the furnishing of their house and procurance of a Library, and trust their call may be liberally responded to. No man knows how soon he may require the services of our gallant firemen for the preservation of his own property, and, therefore, all should readily contribute to the little sum required by them for a meritorious purpose.

A NOVEL SUIT.—A Mr. Hunt sued Miss Laura Keene in one of the Justice's Courts of New York, to recover $1, which he paid for two tickets on the evening of February 28th, having been assured that he would be provided with seats in the dress circle. On reaching that part of the house, however, it was found to be quite full, and he declined taking seats in the parquette, and insisted upon the return of his money, which was refused. The Justice decided that the defendant was bound to refund money. The case being a somewhat novel and important one, Miss Keene has appealed to a higher court. It is rather small business on both sides.

LOOK BEFORE YOU LEAP!—In the Council, on Monday evening, Ald. Myers, Border Ruffian, complained loudly of the Ferryman at Madison street, in consequence of gross neglect of duty, and moved that the vote confirming his appointment be reconsidered. The motion was ruled out of order, whereat the Alderman became more indignant than ever, but was finally *pacified* by being informed that the official of whom he complained was one appointed by his own vote, under the Dyer administration, and that the Republican ferryman had not yet entered upon the discharge of his duties.

DISORDERLY HOUSE.—About one o'clock yesterday morning, the Police made a descent upon a disreputable house, in Buffalo street, between Twelfth and Taylor streets, in which a row was in full progress. The inmates, consisting of white and colored persons, were all arrested and locked up. In the morning Justice Allen imposed the following fines: Mary Paine, keeper, (white,) William Johnson, (colored,) and John Artis (white) $10 each; Geo. Smith (colored,) $15; Morris Fitzgerald, (white,) Margaret Stone, (colored,) $5 each; Almira Artis, (white,) and Sarah Gardiner, (colored,) were discharged.

THE LAST COMMANDMENT.—During the last examination of the pupils in the D. School, Boston, the teacher, Miss L., thought it would be quite proper to ask some questions from the Bible, inasmuch as the committee was composed of several of the leading clergymen of that city; she accordingly asked a little girl, of seven years, how many commandments there were. She readily answered, ten. A little boy of eight years, arose and said—no there is not ten commandments, either. Why not asked the teacher. Because I heard father tell a man the other day that there used to be ten commandments but now there was but nine, for Rev. Mr. Kalloch had knocked one of them all to thunder. The reader can imagine the mirth of the Rev. Committee and the confusion of the teacher. W. B. T.

STRANGER'S GUIDE AND HAND BOOK OF CHICAGO. This is the title of a neat little monthly compiled and published by Messrs. Hall & Co., of the City Directory Office. It contains a large amount of reliable information upon city matters, of interest to both citizens and strangers, such as names and locations of Hotels, Restaurants and Boarding Houses,—location of Railroad Stations, Express Offices, Telegraph Offices, Banks, places of Amusement, Churches, hack and cab stands, Post Office,—also the residences of Ministers of the Gospel, objects of interest about the city, rates of hack fares, and a great variety of other matters, which makes it an exceedingly useful little guide. Purchase a copy.

ASSAULT WITH INTENT TO RAPE.—A Mr. Cutmore, residing in the West Division, was yesterday brought before Justices Milliken and D'Wolf, to answer to a complaint, preferred against him by his servant girl, of an assault with intent to commit a rape. The girl's name is Augusta Grosch, and she is about sixteen years of age. The evidence failed to sustain the charge, and Cutmore was discharged and re-arrested for assault and battery, it having been shown that he had taken improper liberties with the girl's person, and he was fined $25 and costs. Cutmore is a housekeeper, and during the examination offered to prove that his wife is a particularly handsome woman, in order to show the improbability of his having committed the offense charged against him. The prosecutor, Mr. Haven, graciously consented to admit that she was the most beautiful lady in the city. Mr. Cutmore has appealed from this decision of the Justice.

SECOND WARD ALDERMAN.—We desire to again call the attention of the Republicans of the Second Ward, to the Aldermanic vacancy to be filled next Monday. The Border Ruffians are preparing to make a strong push to carry the Ward. Their plan is to divide the Republican vote between two candidates and run in a Border Ruffian betwixt them. A considerable sum of money has been pledged for pipe laying and colonizing and to get out all their votes. They boast that they have got a man professing to be a Republican to run as a third candidate, on whom they expect the German Republicans will throw away their votes. With this division they expect, by a free use of money and cheating, to elect their candidate, and thereby destroy the Republican majority in the Common Council.

Let our Second Ward friends look well to this matter. It is important and should command their earnest attention. Let them nominate some good man who can poll the whole strength of the party, and then see that the Republicans attend the polls.

POLICE COURT—TUESDAY.—The following fines were imposed: Hiram Hervit $10, for peddling without a license. Thomas McKay $10, for attempting to rescue a prisoner from an officer. John Feora and Nicholas Webber $10 each, for abusing their families. William Seaver $15, for abusing Mary Carroll. John Carroll $5, for creating a disturbance in the Council room Monday evening. Mathew McIntyre $1, for whipping his wife. Lewis Hosse $5, for resisting an officer. Jerry Conner $10, Daniel McCaliff $5, Harmon Engle and Henry Sehne $3, for fighting, and Ross Webster arrested for the same offense, was let off by paying costs. Patrick Ross, John Boyl, Michael McNulty, Margaret Duffy, John Kenyon, William O'Reilly and William Smith $3 each; John Connell, John Carroll and Capt. Johnson $3 each; William Bryan, Daniel Smith and Frank Beard $5 each; James McMahon and Edward Lewis $10 each—all for fighting. Jennette Kemble and Emma Hart, a couple of sand girls, were fined $5 each, and sent to the Bridewell for ten days for getting drunk and making a disturbance. Mrs. La Strange and Patrick Hayden were arrested for being disorderly, and let off by paying costs.

YOUNG MEN'S ASSOCIATION.—MR. RYAN'S ADDRESS.—The following portion of Mr. Ryan's address was omitted in our issue of yesterday:

These several reports, gentlemen, furnish all the essential details of the present condition of the Association, and of the administration of its affairs by the Executive Committee who are now about to resign their trust.

In glancing back at the promises made by us when first installed into office, I find the following language used: "The three most prominent obligations imposed upon us by virtue of our election, are: First, The procurement of more commodious rooms for the Reading Room and Library; Second, a considerable increase of the Library; and, lastly an improvement in the character of the lectures in the course provided by the Association." There can be no more appropriate occasion than the present for a review of these obligations, and of the manner of their discharge. First, then, it is a source of no ordinary regret to the Executive Committee, and doubtless to the Association at large, that from circumstances not under our control, we have been unable to effect any change in our rooms. The first desire of the Committee was to purchase a lot and erect thereon a suitable building for the permanent accommodation of the Association. But after repeated published solicitations of offers and very general inquiry, no available proposition was submitted to us of property eligibly located and on reasonable terms, and the committee were advised by many of the oldest members and most prominent citizens that it would be impossible for them to secure a sum adequate to secure both lot and building such as desired, involving as it would an outlay of at least a hundred thousand dollars ($100,000.) That course proved the true, for subsequently an offer being made to the Association whereby permanent and elegant accommodations for the Reading Room, Library and lectures in the very heart of the city could be obtained free of rent forever upon the subscription for that purpose by the citizens of the sum of twenty-five thousand dollars ($25,000), the efforts of the committee to obtain that sum resulted only in the procurement of about half of the desired amount. [illegible]

THALBERG COMING WHEN.—Of course he is, Madam! How could he go home without visiting this region of sudden fortunes and large prices, and reaping a harvest therefrom? You are determined to hear him too; and so you told that amiable husband of yours, the very morning on which he read the announcement in the Tribune. When he suggested that your ear was not sufficiently cultivated to appreciate his excellencies—that most of his wonders of execution would be lost upon you,—we know what your reply was: "All the fashionable people will go; and I do not mean to be behind the others." There's Mrs. Buttercup—she's a hateful stuck-up thing, if she is rich—heard him in New York, and every time I've seen her since, she's talked of nothing else but *Tal-bear*,—I wonder where she learned her way to pronounce English!—until I declare I mean to hear him too. She don't know any more about music than I do, if she does strum away on her grand piano, day after day; but she says she went to "Talbear's morning matinees;" and I shall never hear the last of it. What if the tickets are three dollars each? Ain't you as well able to afford it as any body else, I would like to know? Hard times—a fig for your hard times; I've never heard anything else since we were married, but hard times—hard times—hard times. Better spend the money in teaching the children the accomplishments that our circumstances didn't permit us to learn—is that what you say? Will you never quit throwing that in my face? You made just such a speech at Mrs. Golden Goose's party before lent, and I thought I should go right down through the floor. I declare it is inhuman; and Wiggleton you're no better than a brute to humiliate me so. You say that every body knows that I was a tailoress and you an industrious mechanic. If I thought so, I would go to the city and go where such miserable reports wouldn't follow. You're proud of it, are you? I am ashamed of you Wiggleton; you don't show a proper example to the children. You would rather have them hostlers than snobs, would you? I don't know what you call a snob; s'pose you'd call Mr. Pansy and Mr. Hyacinth snobs wouldn't you? They are going to hear Thalberg—Hyacinth told me so yesterday when I met him. "Go and be d—ned!" oh, you monster! You didn't mean to swear, but couldn't help it, eh? Now, Wiggleton, I tell you what it is—I am going to hear Thalberg, and you may go or not as you please. I am not going to stay here moping at home when all of our acquaintances are enjoying themselves. You would rather hear little Julia sing "Poor Old Dog Tray" than all the nonsensical flub-dubs of Thalberg and all his tribe—just like you, as low as dirt. I vow I could cry!

* * * * * * * * * * *

"Now, Wiggleton, promise me that we shall go, and I'll not get into such a rage again. Won't you now, that's a good old dear."

"Wife, you know I have no desire to deny you any reasonable enjoyment; but I am tired of this eternal and infernal pretension and nonsense. Go and hear Thalberg—anybody you please; but don't, wife, annoy me with pretending to understand what you know you don't comprehend, and to admire what, if inflicted without the approbation of the Pansy's and Hyacinths and the female fools of their stripe, would bore you to death in a week. Go, so you can gabble like the rest of 'em; but don't ask me to go along. Good bye, Carrie!"

"Kiss me before you go!"

"There! you are a good wife after all—don't let's quarrel any more."

Exit Mr. W. on his way to his place of business, where he must face a falling market and hard times for money. Exit Mrs. W. half an hour afterwards, to consult with Mrs. Buttercup about the new silk in which she intends to display herself, when "Tall-bear" comes, and the "morning matinees" are all the rage.

LIFE IN THE GIFT OF A MORTAL.—It seems to us that our Maker has delegated Old Dr. H. James, the famous discoverer of the miraculous Extract of Cannabis Indica, to raise from the grave such of the human family as have been reduced by Consumption, Asthma, Bronchitis, Nervousness, Sore Throat, Coughs, &c., to the last extremity of earthly suffering. Certain it is that this great preparation—the vital principle of the East India Hemp (with other ingredients)—cures these terrible ailments with dispatch and permanency. We have heard of cures of the most marvelous character having been accomplished by it.

Dr. Thomas Tilton, son-in-law of Old Dr. James, is in Chicago, at the Massasoit House, opposite the mammoth depot. He occupies room No. 11, but it is difficult to say how long he will remain with us. He has a supply of the Cannabis Indica, and other medicines, and gives advice. Call and see him, or if you cannot do that, send to him, despairing invalid, it will assuredly make you healthy and happy.

He has also at his room a Spiro-Dynameter, an instrument invented by Dr. James, for testing the strength of the lungs in an instant—an instrument which is now used instead of the stethescope, as being much preferable to that for this purpose.

By addressing Dr. Tilton a note through the Chicago Post Office, inclosing four postage stamps, (12 cents) a receipt will be sent in return free of charge to any part of the Union. He will remain until the 1st of June.

tf Dr. TILTON, Massasoit House.

CHICAGO WHOLESALE MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE, }
Tuesday Evening, March 31, 1857. }

There was a change in rain to-day, from the beautiful weather of the past few days. A good attendance was on change, but there is little small produce here to operate upon, and the transactions were not many. In consequence rather an advance is noted in everything, but money is very tight and almost every one is a "little short." This weather must soon open the Straits; but the Superintendent of the Canal yesterday said the breaks on that work cannot certainly be repaired for a month yet.

New Orleans Exchange has been in moderate demand and is selling at 1½ per cent. for currency.

Gold is very scarce.

The first of April is the date for the various banks making up their reports, they are therefore collecting as much coin as possible to show a favorable statement. In another week we look for a larger supply of coin, without any demand except for shipment to New York.

Currency has been scarce with most of the bankers. The supply is now rather better, but cannot be quoted to possibly accumulated.

Land Warrants are dull, there being more sellers than buyers. We reduce our sell as quotations three cents an acre. There is a large stock on hand. Sales are moderate.

LATEST NEWS.

From Washington.

WASHINGTON, March 31.

The President dismissed his many visitors this morning until to-morrow, stating that the Cabinet would meet an hour earlier than usual, to consider several highly important subjects.

Fleming B. Miller has been re-appointed District Attorney for the western district of Virginia.

There are one hundred and twenty applicants for the 12 or 14 Land Office appointments in Kansas.

General Cass has sufficiently recovered to attend the Cabinet meeting to-day.

The *Union* this morning publishes Walker's acceptance of the Governorship of Kansas. He says:

I understand that you and all your cabinet concur in the opinion expressed to me that actual bona fide residents of Kansas, by a fair, regular vote, unaffected by fraud or violence, must be permitted in adopting a State constitution to decide for themselves, what shall be their social institutions?

I contemplate a peaceful settlement of the question by an appeal to the intelligence and patriotism of the whole people of Kansas. I contemplate no appeal to the military power, in hope that my countrymen in Kansas from every section will submit to a decision of this matter by a full, fair vote of the majority of the people of the territory.

New York News.

NEW ORLEANS, March 31.

It is rumored that an expedition is now fitting out here for some point in Central America. It is supposed that the first demonstration will be made against Veragua, a prairie of New Grenada, between Costa Rica and Panama.

The expedition is said to be friendly towards Walker, and will act in concert with him. It is said that a provisional government has been formed and a considerable amount of funds raised.

It is stated on good authority that instead of purchasing Lower California, our Government will conciliate the South by paying the designated sum of $15,000,000 for the Isthmus of Tehuantepec. It is also rumored that Senator Benjamin has been offered an appointment for the purpose of accomplishing the purchase.

From New Mexico.

A letter from Santa Cruz river dated Feb. 3d says, if the people of Sonora had encouragement they would declare themselves independent of Mexico and ask to be annexed to the United States. The country is overrun by Indians, robbing and murdering people in every direction. The revolution in Sonora had ceased! Governor Candara had been compelled to retire. CITY OF CHICAGO.

Wednesday Morning.........April 1, 1857.

The Mayor's Veto.

In vetoing an order adopted by the Board of Aldermen, for paying the late City Superintendant, ex-Alderman Granger, a bonus of one thousand dollars in addition to his full salary, the Mayor has not disappointed the expectations of his friends; but we have to suggest that further action should be taken, and that the Board withhold Mr. Granger's salary, as fixed by ordinance, until the charges of corruption and malfeasance, urged against him by individuals without number, and under circumstance which leave little doubt that his official career has not been stainless, are thoroughly investigated. We are not at liberty to indulge in specific allegations against this defunct functionary of the Dyer administration; but if we should devote our columns to the reiteration of accusations affecting his character as an officer, we could give our readers and the Common Council ample work for a week to come.

The victory achieved by the Republican party over that crowd of leeches who have filled themselves at the public treasury, will be barren of half its expected results if the officers now in power fail to show their constituents, not only how money may be saved, but how their predecessors have abused their trusts. We point them to a hopeful case for the beginning of an investigation; it is their's to see that it is made.

Why was not Geary Sent Back?

Why was not Geary sent back? is a question that every Northern supporter of Buchanan ought to ask. He resigned because the troops which were promised him for his support in the impartial administration of the laws, were withdrawn, and because without them he was powerless. Why was he not sent back with the plenary power with which Mr. Walker, his Southern successor, is clothed? There were no charges affecting his integrity or ability as an Executive officer, or his popularity as a man. Why, then, was his resignation accepted? Why was the aid of the military refused him, and immediately thereafter tendered to his successor, whose appointment was made upon the solicitation of the fire-eaters of the south?

The Northern democrat who voted for Mr. Buchanan, under the mistaken impression that Freedom was at least to have an equal chance with Slavery, in the Territories, will search in vain for an answer to these interrogatories which will satisfy his conscience, unless he first undeceive himself in regard to the character of the administration now in power. He must see Mr. Buchanan and his advisers as they are seen by others—as the sworn friends of the Calhoun faction which has usurped the government in all its branches—as the staunchest advocates and most faithful allies of that Slave Power which will not rest until it has the entire half of the continent beneath its dominion. These things seen—the answer is easy.

Revival of Agitation.

The quietists who assured themselves and the country that the election of Mr. BUCHANAN would put an end to the agitation of the Slavery question, and compel the Republic to enter upon a career so placid that not a ripple of discord would disturb the surface of public affairs during his golden administration, can now comprehend the magnitude of the swindle with which they have deluded themselves and imposed upon the credulity of others. And the pitiful witlings who sneered at "bleeding Kansas," at the time when her wrongs were fresh and their remedy patent, may, at the same moment, learn that what provoked their flippancy and excited their ill-nature, may prove to be the fatal rock upon which the country will split. The agitation of the Slavery question has but just commenced; and the troubles growing out of the invasion of Kansas, and the unnumbered wrongs which followed, are just now beginning to assume that portentious aspect in which the dullest eye may discover evidences of fearful danger. We are no alarmists; but we desire to put it on record now, that when the Pro-Slavery constitution of Kansas—a constitution already made by a minority of her people, amid circumstances that leave no doubt in the minds of any that it is the creation of fraud and violence—is brought to the Congress of the United States, and it is there demanded by the slavery propagandists that the legality and justice of what has been done shall not be questioned, else the claim of Minnesota for admission will be rejected,—an agitation will arise that will shake the country to its very centre. When that time comes, the nostrums of the political Doctor Townsends, the Nebraska bills of Douglas, the platforms of the Cincinnati Conventions, and the constitutional amendments of the Supreme Court, will be thoroughly tested; and we are mistaken if the people in their wrath do not sweep them away—the pretenders and their remedies—into that political limbo from which they never should have emerged.

Meaning of "National Democracy."

That infamous Border Ruffian sheet, the *Squatter Sovereign*, has changed hands. In his valedictory, its late editor, STRINGFELLOW, gives his readers an inkling of the meaning of the words "National Democracy," and also his opinion touching his success in his past labors in behalf of the "Democratic" cause. He says:

"We circulated during the first year, at our own expense, about two thousand copies of our paper for the purpose of arousing the South to the importance of Kansas as a Territory peculiarly adapted to slave labor. The second year of the *Squatter* we found about a thousand paying subscribers, but owing to the unsettled condition of Kansas affairs our income fell very far below our expenses. We make no complaint of this, as we did not embark in the enterprise with a view to profit, but solely to prevent Kansas from being Abolitionized. We are now with this number of the *Squatter* to close our connection with its editorial columns, with a satisfactory assurance that our efforts, in connection with the law and order men of Kansas, have not been in vain, but that the cause of National Democracy will triumph here as we hope and believe it will everywhere, to the utter extinguishment, not only of Abolitionism, but of that bitterness of feeling engendered by geographical distinctions."

STRINGFELLOW has one merit—that of giving an honest expression to the true mission of his party. A Northern editor, of the Buchanan school, would have congratulated his readers upon the triumph of the principles of "popular sovereignty."

NEW PUBLICATIONS.

THE WESTERN FRUIT BOOK: [illegible] Griggs & Co. 1857.

The author of the above excellent work is well known to Horticulturists as formerly editor of the Western Farmer and Gardener. Anything from his pen is good authority in fruit growing. He brings to his task experience and a wide range of book knowledge. Successful cultivators and amateurs in the Middle and North-western States will find the work one of the best, if not the best, published in a compendium form. It is a practical hand book for daily use—free from useless descriptions and unverified facts. The Chicago publishers deserve credit for the care and judgement bestowed in publishing the work.

Ingenious People, Very.

The Milwaukee *Sentinel* publishes a map of Milwaukee and her railroads, to illustrate the [illegible] of some real estate broker, wherein Milwaukee is made the terminus of nine trunk lines, four of which have "their other ends" on Lake Superior. Chicago—a little village at the head of Lake Michigan—is given but one road, the Lake Shore,—and that only for showing our neighbors get eastward until their contemplated Detroit road is completed across the Lake. Ingenious people, those Milwaukeeans.

The Women Aroused.

[illegible] Earlville, LaSalle county, made their Law demonstration a few days ago, in a usually quiet place, during which they [illegible] the insides out of four doggeries and [illegible] out of the doggery-keepers. The [illegible] conducted more quietly than riots usually—owing, we suppose, to the character of the engaged—? It was completely successful in accomplishing the object intended. There is not now a retail liquor shop in all [illegible] one.

A New Railroad Project.

[illegible] neighbors of Waukegan are endeavoring [illegible] a railroad from that place, westward, [illegible] and Woodstock, to the Mississippi. A public meeting was held there [illegible] day last, at which funds were subscribed to defray the expenses of a preliminary [illegible] and a committee was authorized to [illegible] the right of way.

RAILROAD NEAR BOSTON.—Petitions for [illegible] five horse-railroads in the vicinity [illegible] have been presented to the Massachusetts [illegible]

New Treaty with Mexico.

IMPORTANT INTELLIGENCE.

The Missouri Daily *Democrat* of Monday morning has been put in possession of an important telegraphic dispatch which has been received in St. Louis, containing the substance of dispatches forwarded on Saturday night last, to the New Orleans *Picayune*, from Washington city. It is as follows:

"WASHINGTON CITY, March 28.

"Forsyth treaty rejected. A new treaty between Mexico and the United States has been framed which pays Mexico fifteen millions for Sonora, Sinaloa and Lower California—three millions to be retained for claims of American citizens. Also a line of postal steamers under the American flag, from New Orleans to Vera Cruz, to enable Mexico to obtain men and munitions during the threatened war declared by Rome through Spain, to regain her church property confiscated by the Mexican government. First demonstration of the Ostend manifesto.—Look out for Cuba."

Such is the substance of the dispatches which, if correctly reported, are certainly full of meaning. Furthermore, the *Democrat* learns that Bankhead, secretary of legation, has been dispatched, express, by way of Mobile and Vera Cruz, to Mexico with the treaty. He is to be immediately forwarded in a government steamer. The signification is, that the administration will support Mexico against the attack of Spain, instigated by France and England, who are said to be behind the curtain.

A New Ophir—The Sierra San Juan.

The New York *Herald* and Missouri *Democrat* agree in locating the true Ophir of the Western Continent, in the *Sierra San Juan*, a mountainous range, lying between the Rocky Mountains on the east, and the Sierra Nevada on the west, about midway between St. Louis and San Francisco. The Sierra San Juan is an extension of the Sierra Mimbres, along the southern part of which lie the rich mineral districts of Durango and Chihuahua—and it contains, if we may believe the explorers who visited the regions, and the scientific deductions of Humboldt, Ansted and Fremont, inexhaustible mineral wealth. Says the *Democrat*:

"Here is a group of immense mountains having three prominent culminations, and all in sight, the one from the other. The Sierra San Juan itself, producing gold; the Sierra La Plata, (silver mountain;) and the Cerro di Sal (salt mountain.) The researches and reason of science, studying the geological chart of our country, locate here those central, massy formations of the above three elements of wealth, gold, silver and salt; as iron and copper, belonging to the lower formations, are found at the Missouri Iron Mountains, and at Lake Superior. Such explorations as have yet been made, confirm the correctness of this theory.

Finally, the Sierra San Juan is our close neighbor, accessible by an easy journey up the plains of some 25 or 30 days. It is due west from Bent's fort 400 miles, and is reached from hence by the road of the Arkansas and its affluent, the Huerfano. From the Huerfano opens Robideaux Pass over the Sierra Madre, into the plain of St. Louis. The plain of St. Louis, surrounding the sources of the Del Norte, is the most beautiful of the valleys or *parks* of the mountains. It is the most southern, the most fertile, and the largest of them all, being the *fourth*, as that of the south Platte is the third, that of the Grand river the second, and that of the north Platte the first. From the western edge of the plain of St. Louis rises the snowy battlements of the Sierra San Juan. From the summit of the San Juan, the other masses of the group are seen in the horizon of the Cerro de Sal one hundred miles to the north west. The Sierra la Plata, a like distance, towards the south-west.

If it be true that we have thus close to us and in our midst, so prolific a source of gold, silver, cinnebar and precious stones, (both science and exploration according to their present lights so proclaim it,) is it not worthy the attention of the federal government, the merchants of New York, and the people of Missouri, to incur some expense and take some trouble to hasten its exploration and development?

The *Herald*, in despair over the inactivity and blundering of the government, calls upon the New York merchants to undertake the exploration of this hitherto mysterious region in which are treasured up such masses of wealth. Why not?

The Wheat Crop in Illinois.

This interesting topic is much discussed at this time. We hear so many conflicting accounts that we are somewhat at a loss to judge correctly of the wheat prospects. In Southern Illinois up as high as Montgomery County, it is said to look very fine. In this county wheat looks poorly, very generally. We hear of some good fields, here and there—at Monticello, and in the south part of the county.

Travelers state that they pass some few good looking fields, between Alton and Bloomington—great majority poor, however. In Jersey County, along the stage road, there are some fair looking pieces.

From the northern part of Illinois the account is favorable, and in Missouri and Ohio, the crop promises abundantly. We conclude from all this that the wheat crop of 1857 will not be short from present appearances.

Still the farmers of Central Illinois are quite apprehensive, and this market has been drained of spring wheat and barley, to sow over their barren fields. A friend writes us from Fidelity, Jersey County, as follows—and he is a thorough-paced farmer, about. Will our farmer readers in this and adjacent counties write us such word occasionally:

To this time, as far as information extends, the wheat crops in Jersey County, the eastern part in particular, is a complete failure, and this is the case in Macoupin with rare exceptions. The last crop of wheat is nearly all disposed of and the farmers are endeavoring to obtain spring wheat for seed. Barley and Flax seed is in demand at high prices.—*Alton Democrat, 28th.*

THE FARMER'S PROSPECTS FOR THE SEASON.—We have traveled considerable latterly, saw and conversed with many citizens from all parts of the State, and from what we could learn, the wheat crop bids fairest in the more southern tier of counties. We can speak somewhat of Alexander, Jackson, Perry and Washington counties, in all of which the wheat looks remarkably well, and should have included Marion county in the foregoing list. In this county, Clinton, we have noticed some very fine patches of wheat of very fine promise—we say patches, for last fall we were visited in this region by a, to us, new destroyer, denominated by some the army bug, which, when our wheat was up and of luxuriant growth, swept it off by the hundreds of acres in a day or night, leaving only here and there a patch which still promised well. This small-worm, as it passed over the fields and mowed the green blade, left the root as dead as though it had never germinated. More to the north we hear complaints of the injury done to the wheat by the severity of the winter; but as spring opens, and gentle showers are thrown on the earth, we hope a revival of growth may follow, which shall produce better crops even there than our farmer friends look for.

Now is the time to be up and doing, if we intend to succeed with good crops of oats, Indian corn, &c. Farmers, what are you doing? for if you are slothful all classes must suffer. You are the true lords and masters of all, if true to yourselves. In this country the industrious, intelligent farmer has nothing to fear, and every good to hope for. *Calumet of Peace*, Carlyle, Ill., March 28.

THE WHEAT CROP.—We have made it our business to inquire of farmers from different localities in the county in relation to the prospects for wheat the approaching harvest, and, from all the information we can gather, there will not be anything like an average yield. The drilled wheat is an exception, and is said to look well, promising an abundant crop. Wheat that was sown broadcast late in the season in many instances will be a total failure.—*Belleville (Ill.) Tribune, March 27.*

Discriminating Tolls.

[Correspondence of the New York Evening Post.]

ALBANY, March 26, 1857.

Yesterday evening Gerrit Smith addressed the Joint Committee of the Senate and Assembly, against Discriminating Tolls. His speech was characteristic and effective. He showed conclusively that, considered only in an economical point of view, the policy would be disastrous; that canals are built for commerce and not for revenue—the former being the immediate object, and the latter only the incidental.

He compared the demand of Buffalo to the case of a poor seamstress in his village, who, against his advice, invested all her earnings in a sewing machine, costing $125. The sewing machine was very profitable, for a time; but now he noticed that machines equally good are being sold $10. If his sewing girl should come to him for advice, he should tell her that competition is unavoidable in trade, but she now must do the best under her disadvantages. But if she should go to Buffalo for counsel, she would no doubt get it more to her mind; for Buffalo would say, "Dear Madam, we can sympathise; you are grossly injured by these people, who do not hesitate to wrong you by working cheaper than you can, and the presumptuous Oswego has the audacity to be able to carry freight cheaper than we can; these are wrongs not to be submitted to, and we must work together; we must get the State to force Oswego to charge more for her services than they are worth, so that we may be thus equalized, and you may get the general government to compel all persons to pay $125 for their cheap machine, so that you may be equalized."

He said he was amused by what was said of diverting from Buffalo its "legitimate" trade as if any city had a vested right to any trade or a right to more custom than it could get. It was like a horse race, where a little bobtailed nag (Oswego) out ran the large, finely proportioned horse (Buffalo). The Buffalonians witnessing the race were very much outraged by the result, and wanted to kill the little nag at once, because, as they said, legitimately the big horse ought to have won.

At the close of his remarks, Mr. Wadsworth of Buffalo rose and said that, though invited before the committee, he demanded for the other side of the question, a hearing at some future time. While he regarded the eloquence of the gentleman, he regarded all this talk very much like continued scolding at Buffalo; and since this had been going on so long, he would recommend as a short and convenient litany for Oswego, this:—"God bless Oswego and d——n Buffalo, (especially the Senator from the 31st,) and from all further petitions in favor of discriminating tolls, good Lord deliver us!" The committee will give Mr. Wadsworth an early

LECOMPTON, K. T., March 20.

There is little stir in Lecompton, just now. The excitement of business and town property speculation, so much felt at other points in the territory, is little felt here. But few emigrants have arrived here yet. All the troops have gone to the Fort, except a few dragoons, and it is reported that they are to be detailed on other service. Some of them have been employed during the past week with a U. S. Marshall in trying to arrest some Free State men. There were no prisoners here when Gov. Geary left. The courts will not be held in this part of the territory for some time. In two or three weeks, the spring courts will begin in the northern district. A great deal of excitement exists about the collection of taxes. A large amount has been collected in some localities; in others the tax collectors have been warned to leave. A difficulty occurred on the other side of the river some miles above here. The assessor and sheriff of Calhoun county have seized a lot of saw logs belonging to some Free State men, for non-payment of taxes. They were removed before the owners were able to prevent it, and it is rumored that a fight will be the consequence, if the logs are not given up.

Gov. Geary has not returned. The report that he had gone to Washington, is confirmed by a letter to this place. Woodson is acting Governor. A great deal of pretended mystery is thrown about this departure of Gov. Geary. The other officers in charge give no satisfactory explanation. It is current in town that he has resigned. The chief topic is, who is to be his successor? A great many different persons are spoken of for that office. The pro-slavery men are confident that the next governor will be more favorable to them. Governor Geary's health has suffered greatly. He had a hemorrhage of the lungs, before he left Lecompton. We had a rumor here last night that he had died at Jefferson City. No one here supposes that he will ever be back—even if alive. Some say that he was to be removed and that Richardson of Illinois, was to take his place. Mr. Hall, of Missouri, and others are still talked of.

DELAWARE LANDS.

The chief topic of excitement now, is the Delaware lands. They have not been declared open yet. There is a great deal of trickery in the management of these lands. The officers play into the hands of parties, while the authorities are well aware of their attempts to seize such lands. They declare to all peaceable men who inquire about them, that no one must go on them.

EMIGRATION.

Emigration is pouring into the Territory very rapidly. Every day brings a boat load of passengers up the river. A week ago there was a heavy run of ice, and boats on the Missouri were much delayed. The rivers are now clear. Kansas river has been falling rapidly. It is still in boating condition. Should the usual spring rains come they will keep it up.

BUSINESS

Is brisk throughout the Territory. Great speculation in town lots is going on. Some of this, perhaps the most of it, is sound, and the towns will continue to increase in value. In some other cases, the towns are made for speculation. As the population of the part of Kansas at present surveyed will be much greater than the same extent of country anywhere else in the west, there will be a large number of thriving towns, even more than at present talked of, but they must not be in the same places, or located by different men. There is plenty of room for legitimate speculation in Kansas. There is every prospect that it will grow into a wealthy and powerful State in a few years, and there will be a great many valuable town sites. In some places, town property has risen two hundred and three hundred per cent, in a few months. This will likely continue and increase, unless war again breaks out.

POSITION TAKEN BY FREE STATE MEN.

The Pro-Slavery men are dissatisfied with the position taken by the Free State men at Topeka, in the late convention. They call it rebellious and treasonable. They had desired that the Free State men should have voted, as they expected by the aid of imported votes, to outvote them. The position taken gives general satisfaction to the Free State men.

Utah.

[Correspondence of the N. Y. Tribune.]

"The Legislative Assembly met at Fillmore on the 8th of February. Heber C. Kimball was as usual unanimously elected President of the Council. In the House of Representatives, Hosea Stout (a member of the Danite Band) was elected speaker, by a unanimous vote, in the place of J. M. Grant, deceased. President Grant, being third in authority in the Church, held this position for three consecutive sessions without opposition.

The small-pox has again broken out in the valley with increased virulence, but every exertion is being made to prevent its spread. I have already given you the history of its introduction among this people.

We have been very much surprised at the bold stand which Judge Stiles (our Mormon United States Judge) has taken in the absence of Judges Kinney and Drummond, against the nefarious designs of the Church. As a reward for his attempts to support law and justice, he has been cut off from the Church, and a few days since his office was broken into and all the books, papers and the records of the United States Court were taken out and burned. How long will the Government suffer these men to commit such high-handed outrages, and allow them not only to insult but to drive off with violence the Federal officers?

Brigham Young lately gave a party to the returned missionaries, on which occasion his new harem was thrown open to the company. He expressed his gratitude on the occasion for having the privilege of being able to open such a large house for their entertainment, and regretted that the want of suitable room in his house prevented him from inviting every Latter-Day Saint in the world."

"The means made use of by the Church to get rid of marked persons are various. The following account of the murder of Jacob Lance, committed some four or five months ago, will illustrate the measures often taken for that purpose. Lance was formerly a member of the Danite Band, and was consequently fully acquainted with all the mysteries of Mormonism. He, however, shortly before his death, apostatized and had made all his preparations to start for California; but it would never do for an apostate Danite to leave the Territory; he might reveal too much of the damnable system with which he had been connected. Just before his intended departure, Lance was therefore arrested at his residence in Lehi, on a charge of rape, and was confined in the guard-house to await his trial. At about 4 o'clock in the morning, after his imprisonment, the guards report that, the candle being nearly burned down (I will quote the account as published in the *Deseret News*), 'a small sized person, dressed in female attire, entered and struck Lance, apparently with an axe, as he was leaning upon a bed near the door, and left so speedily that the guard would neither recognize nor secure the individual that struck the blow.—Lance lingered for about three hours, when he died from the effects of the blow, presumed to have been inflicted by the female he so grossly outraged.' Of course the guards failed ever to find or 'indentify the person who so summarily set aside the due course of law in meting out justice;' but as Bill Hickman, the Danite leader, went to Lehi the evening before, and left early in the morning, that the deed was committed, and as he is moreover a small-sized person, and the female upon whom the outrage is said to have been committed, is rather tall than otherwise; it is presumed by very many that the said Hickman murdered Lance by order of the Church.

An incident that shows Mormon influence over the Indians in this valley, was witnessed at Brigham Young's office a few days since. Arapeen, a noted chief of the Utahs, was there. This chief is an elder in the Mormon Church, and although he often prays at the public religious meetings of the Mormons, is noted as one of the most cruel and vindictive Indians in the valley. Some time since he offered an Indian child, which he had stolen from a neighboring tribe, for sale, and not readily finding a purchaser, took it by the heels and dashed its brains out on a rock before some twenty Mormons, who looked on the deed with apathy. He is a great friend of Brigham, and always calls on him when he comes to the city. On the occasion I refer to, while there, he was shown a portrait of his brother, the celebrated robber chief Walker. At the sight of it he evinced much emotion; then turning to Brigham Young, embraced him and said he was his brother now; and telling him how much he loved him, said, 'If Brigham tells me to kill a man, I kill him; if he tell me no kill him, I no kill him.'"

Suicide in Rock Island.

[From the Rock Island Daily Advertiser.]

Yesterday afternoon, an inquest was held at the United States Hotel, by coroner Abbott, upon the body of Lewis Allen. It appears from the testimony before the Jury, that Allen came to the Hotel on Saturday night at about ten o'clock; during the night the lodgers in the same room, heard groans and gurgling sounds, proceeding from him, but attributed them to intoxication. In the morning he remained the whole forenoon in bed; at about 1 o'clock, the landlord not wishing to have him lie in bed all day, went to his room for the purpose of making him get up; his appearance alarmed him and he sent for Dr. Sharp, in a few minutes after the Doctor arrived he died. The act was evidently deliberate, for he was completely undressed, and his clothes were folded with great care. In the pocket of his pantaloons was found a bottle of morphine, out of which more than enough had been taken to poison him.

The verdict of the Jury was "that the deceased came to his death by taking morphine with suicidal intent."

In his pocket book was found these lines:

"Please write to Miss Amy Landon, South Bend, Indiana. Ask her to forgive Lewis A. Allen, March the 28th. I have clothes and tools at the Central Hotel, a good watch which I want her to have. Farewell, and tell her to meet me in Heaven. Amy don't kill yourself when you read this, but try to be happy and I know you will always be good. Farewell, your love, Allen."

This touching message, written with a nervous haste which rendered it in places difficult to read, affords the clue to the cause of the rash act. 'Tis the same sad, often repeated story; love and suicide. The deceased was a good looking young man, apparently not over 23 years old.

SINGULAR OMNIBUS GRANTS.—Bonds, alleged to be those of "the General Omnibus Company of New York," which is said to have been chartered by the New York Legislature as a monopoly of sixty years, and with a capital of nearly $3,000,000, are selling, it is said, in Paris and London, the directors to be in the hands of persons belonging to the former. This

NEWS BY THE STEAMER ILLINOIS.

CALIFORNIA AND NICARAGUA.

As our readers were told by telegraph, the steamer Illinois, arrived in New York, from Aspinwall, on Saturday last, bringing $1,137,128 in specie. We find the following interesting items in the intelligence brought by her:

CALIFORNIA.

The weather, until within the last few days, has been one continued and incessant rain. The miners are rejoicing at the prospect of plenty of water for the coming season, and our merchants are anticipating heavy receipts of dust and a proportionate increase of business.

The most exciting topics during the last fortnight, have been the impeachment of our State Treasurer, Dr. Bates, and Comptroller Whitman by the Assembly, and the proceedings consequent thereto. The Senate has adopted a resolution to sit as a High Court of Impeachment on the case of the Treasurer, on the 5th of the present month, and on that of the Comptroller on the 9th. Dr. Bates has since been arrested on two separate charges of felony, and held to bail in $10,000 on each charge. Rowe, who was committed to prison for refusing to answer the Grand Jury, still remains in custody.

The Committee on Claims in the Senate, have reported that, although many of the claims referred to them are valid and correct, yet they cannot recommend their payment, in view of the decision of the Supreme Court, that all liabilities incurred by the State, since she exceeded the limit of $300,000 prescribed by the constitution, are void. The Supreme Court, in the case of Nougues *agt.* the Secretary of State, have reiterated their former opinion in regard to the unconstitutionality of all the State debt over the $300,000 authorized by the constitution.

A good deal of talk, and no little excitement was caused in the city on Saturday last, by the rumor that the notorious Ned McGowan had reached Sacramento and given himself up to the authorities there, with a view to taking his trial on the indictment now pending against him.

This subsequently proved true, and it was thought by some that steps would be taken by the Vigilance Committee to obtain possession of his person. They, however, resolved to leave him to be dealt with by the courts, whose prisoner he is, and whose duty it is to take him into custody and give him a fair trial; a course in which our people have generally acquiesced; and already we hear but little further discussion on the subject, all seeming determined to wait and see whether the courts are going to do their duty in the premises or not, after which there will be time enough for outside action, should any be deemed necessary.

Calico parties are becoming quite common, and have everywhere met with encouragement and success.

John Hyde, an ex-Mormon, is lecturing against that sect to large congregations, in various parts of the State. His expositions exhibit the practical iniquities of that vile and debasing system in the manner that is calculated to arrest the attention and indignation of the entire civilized world.

From all parts of the mines the reports are most favorable. Water is now abundant everywhere, and is to be had in many localities where it could not be found for years past. Owing to this, many rich places in the dry diggings are being worked that could not be before. New diggings are being constantly discovered, many of which are rich and extensive.

A rich deposit of coal has been found near Mormon Island, twenty-two miles east of Sacramento City, near the terminus of the railroad.

OREGON.—The winter has been much more severe than for many years before, the snow being so deep in the interior as to impede the roads, and cause great suffering to the stock. Most military operations had, in consequence been suspended.

NICARAGUA.—The steamer Panama, Capt. Dow, arrived at Panama on Sunday, March 13, from Central America, with 124 deserters from Walker's army, *en route* for the United States, 24 for New York and 100 for New Orleans, at the expense of the Costa Rican government.

It is positively stated by some of Walker's deserters that his men had unanimously refused to go out of Rivas to fight, but expressed themselves willing to defend their position.

The Costa Rican papers contain an address of the deserters from WALKER's army now under the protection of the Costa Rican Government, to their late companions in arms. It sets forth their former sufferings, the way in which they were deceived, the hospitality with which they are treated, and ends with an exhortation to fillibustering brethren to desert WALKER *en masse*. It is signed by about fifty men.

An Ominous Appointment.

[From the Missouri Democrat.]

The telegraph informs us that Robert J. Walker has been tendered, and has also accepted, the position of governor of Kansas. We are not yet advised, however, of the motives that prompted this nomination, or the exact political ends that are designed to be accomplished by it. Mr. Walker is an avowed slavery-extensionist, and has been closely allied in the past to the school of the southern fire-eaters. It is known that he was pressed upon the President for the Cabinet appointment of Secretary of State, by Jeff. Davis, Toombs, and twenty-four Southern Senators, so that he may thus be considered as having received the latest marks of their approbation. His selection, therefore, as Governor of Kansas, may not unfairly be regarded as antagonistic to the rights of the free state settlers, and as favorable to the concoction of a slavery constitution by the present office-holders. But we refrain from further comment on this subject, until we shall have a better view of matters at Washington.

One point, however, we do not feel at liberty to pass by without notice. It is that, so far as Missouri is concerned, the appointment is the most hostile to her interests that could by any possibility have been conceived of. Robert J. Walker has been identified for a lifetime with all the schemes of those southern statesmen who have so systematically opposed the advancement of the west. His whole fortune in politics, as well as in financial matters, is invested in the projected southern railroad to the Pacific, and in the government lands donated by Texas to carry out that project. He is committed body and soul to that enterprise, and it would be almost hoping against hope, to think that he is not sent to Kansas with the secret object of killing off forever all prospect of the Central Pacific Railroad. To place an ultra sectional man, largely interested pecuniarily in his own southern schemes, in a position of so much influence, and commanding the outlet of the west to the Pacific, is to destroy, by indirect means, the greatest and most important interests of the central States of the Union.

Simultaneous with this appointment, comes a rumor of another Mexican treaty, already projected and just made public, for the purchase of Sonora and Lower California for fifteen millions of dollars, to perfect the route for this Walker Texas railroad. In addition to this, we had on yesterday, the following telegraphic dispatch in regard to a northern wagon-road to become hereafter the basis of Douglas' pet projected route.

[From the St Louis Intelligencer.]

Robert J. Walker, originally of Pennsylvania, more recently of Mississippi, and now Cosmopolitan resident speculator of New York, has, after keeping the Cabinet waiting several days, at last been gracious enough to inform the President that he accepts the post of Governor of Kansas Territory. Mr. Walker is well known as Mr. Polk's famous free-trade Secretary of the Treasury, and considerably notorious also as one of the fancy stock-jobbers who originated the Texas Pacific Railroad scheme.

He is a man of talent, indeed; but his talents are of a visionary, unpractical nature, and very much addicted to bubble speculations, intended to start on nothing, and make a fortune. We dare not hope that he will make a good Governor for poor Kansas; as he has not the right sort of material in him. He will, however, find Kansas a fine field for the exercise of his speculating and stock-jobbing propensities, where he can soothe the rugged responsibilities of his trying situation, by railroad schemes and land trades. After he has been in the Territory about six months, made a fortune, and become disgusted with the country, we presume he will resign, and leave the place vacant for some one else.

Poor Kansas!—the whole Democratic party cannot furnish her a respectable Governor!

Gallantry of the Administration.

Mrs. Perkins, a lady who has occupied the position of Postmistress, at Baraboo in Wisconsin, has been guillotined by the rotary knife, which is now in operation at Washington, and her place given to a brawling pot-house politician. The letters on file applying for this change have been examined by the Hon C. C. Washburne, to find out what were the causes of the lady's removal, and one of the letters, on the part of Mrs. Perkins, was found to be from a Democrat high in office in the State, who said that he had been applied to, to aid in procuring her removal. That he had made inquiry and was satisfied that her removal was not desired by any honorable man; that three of the parties who applied for his influence, were at the time so drunk as to be little better than so many beasts, and two others were but a little less beastly condition; that Mrs. P. was the widow of a Democratic elector in the State of New York in 1844, that she had never interfered in politics, but attended strictly to her duties, and that she depended in a great degree upon the office for the support of herself and her children. Also a manly letter from Hon. Daniel Wells, jr., stating that he had made inquiry into the case, and was satisfied that the interest or honor of the Government would not be promoted by the change. Also a remonstrance signed by over two hundred citizens of Baraboo against any change, and a large number of affidavits, many of which are recognized as having been made by gentlemen among the most respectable in the State, denying that Mrs. Perkins had ever failed to discharge her duties honestly and fairly, or that she had ever exercised or sought to exercise any political influence whatever.

This is a specimen of the necessities of the party. They are about starved out.

J. H. CRANE, formerly of Ohio, but lately a resident of Marshall County, Ill., not having a proper fear of the wife he left behind him, took to himself another rib in his new home, and soon after ran away with her daughter; was followed, arrested, and lodged in jail. Serves him right.

SENT TO AS PROTECTOR.—Gen. Persifer F. Smith has given his acceptance in favor of R. J. Walker's engagement to restore order in Kansas on thirty days' sight. The acceptance of this political bill of exchange is sure to be protested, as have been all the Walkerian kiting bills of exchange, drawn within the last [illegible]

AFFAIRS IN WASHINGTON.

[Correspondence of the New York Evening Post.]

WASHINGTON, March 27, 1857.

To-day is a *dies non* with the President and his office-seeking attendants. Yesterday noon as he was sitting in his cabinet room, surrounded by a group of anxious expectants of official favors, and just after he had announced to one of them that there were only one hundred and thirty-seven candidates for the post for which he had applied, a despatch was placed in his hands. "My God," said he, "I have lost a dear relative. Gentlemen excuse me;" and he bowed the company out. A nephew of the President, Elliott Eskridge Lane, who had attended him on his journey to the inauguration, and who had returned to occupy the mansion of the President at Wheatland, had died. Thus has the beginning of Mr. Buchanan's administration been marked by an affliction similar to that which shadowed the inauguration of President Pierce in the death of his only son.

Gov. Geary left Washington yesterday afternoon. The prevailing impression is that Robt. J. Walker has accepted the successorship, and has requested Mr. Stanton, formerly member of the House from Tennessee, to become his private secretary. Mr. Stanton, it is thought, will not assent, as he can make a good deal more money in the Court of Claims, where he is now practising. Kansas is a desirable field for a man of Walker's speculative turn.

[Correspondence of the N. Y. Courier and Enquirer.]

WASHINGTON, March 26.

The folly of the assertion that the British Treaty was materially modified by the President after its passage by the Senate, and being transmitted for the acceptance of the British Government, is proved by the fact that the changes upon the original instrument advised by the Senate, were prepared by the Cabinet under Mr. Buchanan's direction, and were placed in the hands of Mr. Davis by that authority. That trifling alterations were made, suggested by information of the views of the British Minister communicated by Lord Napier is not unlikely. The immediate submission of the Treaty, in the shape of resulting from the Senate's action, to the Queen's Government is accounted for by the desire of our Administration to exclude the natural presumption that the treaty had been in substance and spirit rejected by the Senate. Otherwise, it is the opinion of persons of sound judgment, that the negotiation would have been conducted with Lord Napier. The business will be more promptly concluded in London than in Washington, because the draft forwarded contains the *ultimatum* of this government and it only remains for that of Great Britain to reject or accept it.

Boston Post on Kansas.

[From the Boston Daily Atlas.]

The following note was addressed yesterday to the Editor of the Boston *Post*, and was refused publication in that paper;

BOSTON, March 27, 1857.

To the Editor of the Post:—You say in an editorial article this morning, that it is difficult to understand the motives of the leaders of the Free State party in refusing to vote. I will tell you. They refuse, by this action, to recognize the usurpation of Missouri, which it would be impossible consistently to oppose if we once acknowledged its validity.

The polls are still in the hands of the invaders. A proposition to give the free State men one of the three judges of election was unanimously voted down in the territorial Legislature.

The test oaths were not repealed. If I err in this last statement, I will acknowledge it as soon as I can receive a reply from Gov. Geary, whose name, you will notice, is attached to neither of the reputed repeal acts, published in your journal from the Washington Union.

The first and second of these motives,—either singly or together, are sufficient, we submit, to justify the conduct of our leaders in recommending the people to refrain from voting at a bogus election, under bogus laws, under the scrutiny and auspices of bogus officers, and for a bogus convention called by a bogus Legislature, to frame a bogus Constitution.

JAMES REDPATH.

Discovery of Australian Tin.

To the Editor of the N. Y. Evening Post:

Having received from an American merchant in Australia a small sample of the "black sand" from Owen's river, which is just now attracting so much attention in England, I presented it to Dr. Torrey, the United States Assayer, for analysis. He has given me a report that it is an ore of the purest quality. With the exception of a few scattered grains of quartz, the whole mass was oxide of tin, the proportion of pure tin being at least 70 per cent. The price of tin has doubled within the last few years, from the increased demand, and no new locality has been found to promise a supply until the present discovery, which is understood to be inexhaustible.

The sources which have hitherto been chiefly relied upon by the whole world, are the tin mines of Cornwall, England, and the Dutch Island of Banca, near Sumatra in the East Indies, with some additions from Saxony. No available mines have ever been discovered in this continent.

J. L.

Judge Eustace, of Lee.

The Sterling *Times* in noticing the business of a recent term of the Circuit Court of that district, thus compliments the newly elected Judge.

We cannot conclude our report for this week without saying a word in relation to our new Judge. The opinion of Judge Eustace on intricate law points was called for on Thursday, and we could not but remark the smile of satisfaction which illumined the countenances of the legal fraternity, and the expressions of satisfaction which fell from the lips of spectators, at the lawyer-like and comprehensive manner in which his opinions were given. We felt proud that we were the first publisher in the district to present his name for the position he now occupies. The District will have reason to be pleased in the selection it has made.

STRANGE ACCIDENT.—A strange accident occurred in Hamilton, Canada, on Thursday last:

"A French Canadian woman named Mary Jewetry, was drowned under very peculiar circumstances yesterday. The deceased appeared to have been walking along a slight embankment on the side of the street, and having slipped and fallen with her face in a posthole full of water, was drowned. It is somewhat singular that an accident of the kind should have occurred at mid-day on one of the principal streets without attracting the notice of some passers by, but such is the fact.

Rev. W. C. Van Meter and his Persecutors.

Rev. W. C. Van Meter, agent of the New York Children's aid Society, and by the duties of his place engaged in providing in the West for families and for friendless children committed to his care, was arrested in Washington, Tazwell County, Ill., a few weeks ago, on the charge of bringing paupers into the country, and was fined one hundred dollars. In a letter to this paper, that gentleman explains that no one of the children ever brought out by him has ever been a charge upon the community in which he or she was left—that all the friendless whom his society have assisted are doing well, earning their living honestly and satisfactorily, and that they are in a fair way to become good citizens. Mr. Van Meter thus closes his communication:

"We do not intend to do wrong or violate any law, but when a poor, homeless, friendless child of want comes to us for sympathy and protection, and a kind christian family in Illinois or any other place sends to us according to the above requirements, may God do much more so to me and my children if I do not send it. It would be strange indeed if none of them should cause trouble, but never has one taken to Illinois been in the poor-house or in any manner a tax to the county. It is said I "preach percent on." It is false. I would not have written this but for the infamous falsehoods written by those who sneak in the dark to assassinate. I ask no "sympathy" for myself; I am not in trouble. But I do ask for sympathy for the thousands of little ones for whom we labor; I do beg for help in behalf of the hundreds under our care at an expense of about $500 per week; I do beg that for the next five weeks, five hundred persons would send us $1 per week; then our pressure would be over.

It is said "it is an Abolition movement." It is. It has abolished the degradation—drunkenness—hunger—rags—sorrows—tears and poverty of thousands. But that this work of saving children is under any creed, political or religious, is maliciously false. The miserable creature who was the cause of the trouble and who was voluntary pettifogger on the trial having fallen into the contempt of his brother ministers, sneaked off to a distant State—sunk there—sneaked back—asked to be permitted to preach again in connection with a Conference in Illinois—was promptly and scornfully rejected; and now, feeling his need of sympathy in this his last, least and meanest act, cries out "Abolition, Abolition!" "Kidnapping white children in New York and selling them like beasts for $15 to $50 a head!" while he meanly keeps the boy above alluded to, to black his boots and do his dirty work.

The Children's Aid Society is alone responsible for the sending of this boy and are ready to meet that responsibility, but the boy going under my care causes me to be legally responsible. The Five Points Mission had nothing whatever to do with the matter.

In conclusion, permit me to acknowledge the noble generosity of one of the principal Bankers, (whose name I do not know that I am at liberty to give,) in Chicago, who says "please draw on me for the amount of the fine, and I will cheerfully and promptly honor the draft. God prosper you in your noble work."

The friends of perishing infancy and childhood are most cordially invited to visit the Mission when they visit the city.

In behalf of the poor.
W. C. VAN METER.

Attempted Murder—Suicide of the Assailant.

The Auburn *Daily American*, of Thursday, has the following:

Near the inlet of Lake Owasco, in the town of Moravia, and some fourteen miles from this city, resides a farmer named Wm. Clark. In his family has lived for months past, a young man named Albert Wood, and a young woman named Shaw. They were employed as servants in the house and farm. They have been very intimate with each other for some time past.

On Tuesday night last, Mr. Wood and Miss Shaw were in conversation with each other in Clark's house as late as 11 o'clock, and parted with apparent good feeling. Yesterday morning they were again in company with each other as late as 10 o'clock, and there was no manifestation made of ill-feeling or misunderstanding. At this hour Wood entered the room where Mrs. Clark and Miss Shaw were sitting. He had a pistol in his hand, and commenced loading it. He tried a ball, and found it too small; Miss Shaw volunteered to procure a "patch" for it. She did so. The "patch" was not large enough, and she procured another, and then the pistol was loaded.

Wood then said, "What shall I shoot?" Some one said, "Shoot into the wood box." He replied, "I won't do that." Mrs. Clark exclaimed, "Don't fire in the house. If you are going to shoot, go out of doors and do it." At this moment, Miss Shaw cried out, "If you want to shoot, *shoot me, and shoot me so that I won't kick more than once!*"

He turned towards her deliberately, and placed the muzzle of the pistol against her breast, and fired! The ball entered her body just below the heart, and she fell to the floor with a shriek.

Mrs. Clark exclaimed in horror, "You have shot that girl! Go and call the neighbors!"

Wood then took two letters from his pocket, and throwing them upon the floor, directed Mrs. C. to show them to the Coroner. He said nothing more, and paid no attention to his victim, who was lying upon the floor in an apparently dying state.

He commenced reloading his pistol, and Mrs. C. rushed from the house to alarm the neighbors. After she had proceeded a few rods, she heard another pistol shot, but ran on. The neighbors turned out, and on reaching the house, found Wood dead, he having shot himself directly through the heart. Miss Shaw had recovered sufficiently to converse. She said she heard Wood breathe several times after he shot himself. She produced one of the letters that Wood threw upon the floor, and directed that it should be read if she died—if she did not, that it should be burned.

A physician from Moravia probed the wound and extracted from it the ball, and a hook and eye that had entered it from her stays. The ball evidently glanced off from contact with some resisting substance. Otherwise, instant death must have been the result. Coroner Lombard left this city last evening to hold an inquest and obtain all the facts in the case. At daylight this morning, Miss Shaw was still alive, but it was not believed possible for her to survive. She refused to converse in regard to the matter, or give any information relative to its cause. The incidents connected with this dreadful affair would seem to indicate very clearly that it was the result of a mutual determination on the part of both the actors in it. We learn that circumstances of a domestic nature, at present kept private, will, when promulgated, confirm this hypothesis.

An Extraordinary Article.

We find the following in the New York *Day Book*, a steady Pierce Administration paper, at least up to March 3d. The editor of the *Day Book*, as an editor in the confidence of the administration, has had opportunities of information beyond those usually given to the public:

The President's Private Secretary and the Kinney Grant.—One cannot avoid, in reading the testimony in the Fabens case, the conviction that Master Sidney Webster was not only a good deal mixed up with the Kinney and Greytown speculation, but that he had used his position to implicate the President in a good many speculations, where he alone has been connected with the chief operators. His intimacy with O. B. Matteson and Thurlow Weed, his frequent telegraphic despatches to Oneida county and the Astor House, as well as affectionate correspondence to "My Dear Matt," have all become a matter of common notoriety, and there is scarcely a politician in Washington or New York who does not believe him a partner with O. B. Matteson in nearly every scheme he engaged in. Nothing but respect for the President himself, has saved him from exposure by clerks and heads of departments, whom he has at one time made confidants and at another treated with scorn and haughty derision. Possessed of the peculiar Yankee shrewdness which marks the button-makers of New England, and that oily smoothness that steals it insidious way into the confidence of the generous and honorable minded, he wound himself into the good graces of every member of the Cabinet except the shrewd old fox at the head of the State Department, who trusts but few, and never one that he has no well tried.

We happened to be cognizant of one, at least of Sidney Webster's partnership transactions with O. B. Matteson. It was of a nature that compromised the President directly and seriously. It was a transaction in which Matteson persuaded the parties, interested in a measure to which the President's assent was necessary to its being carried out, that he, Matteson and Webster must have twenty thousand dollars—ten thousand each, before that assent would be given. The money was promised; Webster was active and as busy as a bee in a box in making his importance and his influence known, and in due time the assent was announced, just as everybody but those on the anxious seat (the interested parties) knew it would be—whether O. B. Matteson and Sid Webster were in the body or out of the body. They took this way to make ten thousand dollars a piece out of men they had persuaded to believe President Pierce to be a corrupt man.

We do not charge that Sidney Webster did this, for we do not know; but we do know that men who six months ago believed the President incorruptible, have, through their associations with Webster and Matteson been made to believe otherwise, and suppose now that his assent to a measure was obtained solely on account or by reason of the promise of money made to these two immaculate individuals. We have a "moral conviction" that some of master Webster's schemes and speculations with "My dear Matt" have been interfered with by "suspicions" of different members of the Cabinet, and, in one instance at least, those who have been persuaded to "use him" have found to their sorrow that these "suspicions" have turned him to ashes in their mouths and made them glad to spew him out. It is a great pity that the President did not find him out and treat him the same way, before Fabens and Kinney learned how smooth and pliable, and ready to barter away the good name and character of his master, was this unworthy servant.

Cedar Falls, Iowa.—The people of this town are exulting at the prospect of hearing the Dubuque and Pacific railroad finished to Dyersville, on the first day of April, which will bring them within twelve hours' ride of Dubuque. [illegible]

Valuable Railroad Improvements.

In these times when so many lives are sacrificed by Railroad accidents, it is gratifying to see that the inventive genius of our countrymen is at work devising means of safety without too great a sacrifice of speed—for speed the travelling public will have.

One of these recent inventions is a railroad switch contrived by J. M. Dick of Buffalo, which is opened and closed with unerring certainty by the passing locomotive, at any rate of speed. The Buffalo *Republic* gives an interesting account of a test trip made on the Buffalo & New York City Railroad. The invention is thus described:

This switch is one that combines the greatest utility, with the most perfect simplicity and economy. When at rest this switch keeps the main track constantly perfect. When cars wish to leave the main track, the movement of the rail connected with rods, is against a heavy eliptic spring, and when it is moved to the correct point, a catch like that in a gun lock holds it. On the side of the rail, connected with this catch, runs a lever for the distance of fourteen feet, with a circular piece of iron on the end of it projecting an inch or two above the rails. As the locomotive comes along, the forward wheel strikes the end of the lever, the catch is released, and the rails spring to their main track connected like a flash of lightning. Thus if the switch has, by design or by accident, become displaced, the first locomotive coming along, instead of running off the track, makes all straight by passing over the lever. It is impossible that it can by any means get out of order, and as an invention to add to the safety of property and lives on railroads, is unrivalled and incomparable.

The train was run back from Hornellsville to Buffalo, at 45 miles per hour or more, seventeen switches having been left open, to be closed by the passing train, at that rate of speed. A failure at one switch would have thrown the train down an abyss of 250 feet at the Portage bridge. The experiment was a fearful and a fool hardy one, but the switch did its duty. The last 31 miles was run in 37 minutes, passing over and closing six of the open switches.

Another valuable invention is Loughridge's Car Brake, which was tried near Cincinnati, on the Dayton Railroad. The brake was tested carefully and with the following gratifying results:

1st. A train of six cars was run at a speed of thirty-three miles per hour, and brought to a full stop in twenty-two seconds, in a distance of five hundred feet.

2d. A train of four cars was run at a speed of thirty-seven miles per hour, and stopped in twenty seconds in a distance of five hundred and ten feet.

3d. A train of four cars was run at a speed of thirty-seven miles, and stopped in nineteen seconds in a distance of five hundred feet.

4th. Five cars, speed forty-one miles per hour, stopped in nineteen seconds in a distance of seven hundred feet.

5th. Four cars, speed forty-five miles per hour, stopped in twenty seconds in a distance of seven hundred and twenty feet.

Office hours from 10 to 4 o'clock.
Consultation personally or by letter free.
As Drs. Fitch and Sykes will on no account both be absent at the same time, patients from a distance need fear no detention or delay.
HINTS TO INVALIDS—Or, Suggestions for the relief of Consumption, Asthma, Bronchitis, Female Diseases, Dyspepsia, &c., by Drs. Fitch and Sykes, sent free of charge to any requesting it.
Dr. Fitch's Invalid's Guide and Consumptive's Manual, &c., sent by mail to any part of the United States on receipt of 25 cents in postage stamps. Letters may be addressed either to Dr. Fitch or Dr. Sykes.

To the Citizens of the United States.—Caution to the Public.—After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1837, in making a discovery in its manufacture by which it was deprived of acrid and inflammatory properties, and rendered perfectly pure.
My manufactory is at Schiedam, Holland. After seven months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Schiedam Aromatic Schnapps." Schiedam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogue, Dram—Wolfe's Schiedam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the liquor mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Schiedam Gin, Schiedam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles, a merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.
I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory for popular execration.
WOLFE'S SCHIEDAM AROMATIC SCHNAPPS
is made from Barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.
As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and North-west, are peculiarly liable—the Schiedam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.
It is put up in quart and pint bottles, in cases of one dozen with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.
For sale by all respectable druggists and country merchants.

Important to Consumptives.—Many valuable lives, have been saved by Hegeman, Clark & Co.'s Genuine Cod Liver Oil, which, in all human probability would have been lost but for its timely use.
It is no quack medicine, but the Pure Oil, made with the utmost care from the Fresh Cod Fish Livers, and is recommended by the most eminent physicians in Europe and America, and has proved by ten years' experience, the most valuable remedy for Consumption and Scrofula ever discovered, for while it cures the disease, it increases the health and strength of the patient.
Caution.—There is a great deal of spurious oil, adulterated with Seal Oil, Whale Oil, &c., [illegible]
Notice, that Hegeman, Clark & Co.'s signature is over the cork, and the Eagle and Mortar on the label; for, since the death of W. L. Rushton, our late partner, there has been an article called Rushton's put in the market, which is in no way connected with H. C. & Co., or H. C. & Co.; and thousands who had used other Oil without success, have been restored to health by the Genuine Oil of our manufacture.
Sold by J. H. Reed & Co., Penton & Robertson, Penton, Fisher & Co., Sears, Smith & Co., Sawyer, Paige & Co., Hooker, Innes & Co., Ray & Baldwin, Gale Bros., F. Bryan, and by Druggists generally.

$1,000.—Tasteless and Convenient.—Bradford's Infallible Gum-Coated Pills, for the positive cure of diseases, where that nauseous stuff, Copaiva, is generally used. The proprietor of these Pills will forfeit the One Thousand Dollars if they fail to make a cure, and hopes the he may be instrumental in curing thousands of unfortunates of diseases for which the usual remedies (which are often ineffective) are nauseous, and certain to accomplish the exposure of the Patients. The Infallible Gum-Coated Pills are without smell—cannot be detected as a specific for secret diseases, as they look like any ordinary Pill, and may be carried in the vest pocket, and safely taken anywhere. They can be swallowed without the slightest inconvenience, having no taste and producing nothing like sickness of the stomach. No other remedy of like nature possesses such advantages, nor will they cure so surely and so speedily as the Infallible Gum Coated Pills.
Price $1 per box, or 6 boxes $5. Sold by FAHNESTOCK & DAVIS, 100 Randolph street.

Brown's Bronchial Troches.—These Lozenges are prepared from a highly esteemed recipe for alleviating Bronchial Affections, Asthma, Hoarseness, Coughs Colds, and Irritation or Soreness of the Throat.
Public Speakers and Vocalists will find them beneficial in clearing the voice before speaking or singing, and relieving the throat after any unusual exertion of the vocal organs, having a peculiar adaptation to affections which disturb the organs of speech.
To Messrs. John I. Brown & Son:
I have constantly used your "Bronchial Troches" for two years, and find them particularly efficacious in clearing and strengthening the voice, either for singing or speaking.
Yours respectfully,
JULIA BARROW.

Cristadoro's Hair Dye.—This great chemical discovery has taken precedence over every other preparation for changing the color of the Hair. The public have realized by experience the important fact, that while it imparts the most perfect and natural black or brown, it does not impair the softness and elasticity or arrest the growth of the hair. Free from all caustic ingredients, it neither stains the skin of the head, dries up the moisture circulating through the fibres, nor emits any unpleasant odor. The application is given and finished in ten minutes, in any weather, and the rich natural hue imparted to the hair of the head, the whiskers and moustaches is uniform in shade in every filament. Hence its popularity, and the wonderful rapidity with which it has superseded other dyes, throughout the United States.

Fire and Water-proof Cement
ROOFING.
W. E. CHILDS & CO.'S PATENT.
WE ARE NOW PREPARED TO PLACE W. E. CHILDS & CO.'S
Patent Fire and Water-proof Elastic Cement
ROOFING,
Upon buildings of all descriptions in this City and Country, and solicit orders from builders and others.
This is the only roofing material yet discovered which will successfully resist the action of the elements in all climates. It is perfectly fire and water proof; and, in point of durability, superior to any other material now in use—except tiles, and these are by far too costly for ordinary buildings.
We can put it on over tin, tar, iron or shingles, it making NO DIFFERENCE HOW FLAT OR STEEP THE ROOF MAY BE. The Roofing is warranted to prove as above represented. We will put it on for $6 per square—(10 feet square)—being as cheap as the cheapest, than shingles.
We invite all who are building, or who wish the roofs of their buildings repaired, to call at the Agency of the Etna Insurance Company, on South Water street, at the foot of Lasalle, where all information will be cheerfully furnished.

ADDITIONAL LETTERS AND EVIDENCES.
A GREAT NATIONAL WORK.
ABRIDGEMENT
OF THE
DEBATES IN CONGRESS,
FROM GALE & SEATON'S ANNALS OF Congress, from their Register of Debates; and from the official Reported Debates, by John C. Rives.
By Col. THOMAS H. BENTON,
Author of Thirty Years' View.
To be completed in 15 vols. 8vo., double columns, comprising that is now contained in over 100 volumes.
Price $3 per volume, cloth; $3.50 in law sheep; $4.50 in half calf.
The first volume is now ready, and it is expected that a volume will be issued every two months, until complete.
The work will be sent to any part of Illinois or Wisconsin, where express runs, prepaid, on receipt of the retail price.
In neighborhoods where we have no agent, clubs may be formed, and for every four subscribers we will send the fifth gratis, charges of transportation to be paid by those ordering.
These Debates have been accruing for a period of nearly seventy years, and all, more than one hundred volumes, one-third of them quartos—and cannot be purchased for less than $500, nor read, when purchased, except at a necessity, nor anything found in them, when wanted, except upon laborious search. In the mean time they contain the history of the working of the Government from the foundation—show what has been done, and how it was done—and shed light upon the study of all impending questions; for there is not a question of the day, and will not be while the Government continues, which may not be illustrated by something to be found in these Debates.
The following letters will show how much the work is appreciated by some of our leading men:
"Wheatland, near Lancaster, Nov. 11, 1856.
"My Dear Sir—It affords me pleasure to become a subscriber to Col. Benton's Abridgment of the Debates of Congress from 1789 to 1856. From the long experience of the Col. in public affairs, his commanding ability, and his accurate and extensive knowledge of our political history, we may expect that this work will add to his own fame, and prove highly valuable to his country.
Yours, very respectfully,
"JAMES BUCHANAN."
Of this work, Gov. Chase, of Ohio, says:
Executive Office, Columbus, Dec. 5, 1856.
Dear Sir—The proposed Abridgement of the Debates of Congress, by Col. Benton, commends itself to the favor of all Americans. The work itself is most important. It will place within the reach of thousands otherwise inaccessible treasures of historical knowledge. It will make known to the present generation the discussions of the past—deeply interesting themselves, but even more interesting as exhibiting the beginnings of great traces of events, the procession of which is yet passing before our own eyes.
And no man is so well fitted for this work as the distinguished statesman who has undertaken it. His large experience in the public councils, and his comprehensive judgment, afford sufficient guaranties that nothing will be retrenched which should be retained, or retained which should be retrenched.
Very respectfully yours,
S. P. CHASE.
The Hon. Judge Ware, of the United States District Court for Maine, in a letter to Mr. Whitman, says:—
A faithful and impartial Abridgement of the Debates of Congress, from the organization of the government to the present time, will be a work of very great value to every man who feels an interest in the history of his country. Mr. Benton's long experience in public life, familiarity with all the great questions of national policy which have agitated the country, and been discussed in Congress for the last thirty-five years, and his known industry, eminently quality him for such a work.
ASHUR WARE.
Portland, Feb. 14, 1857.
We shall probably receive the assent of every reader in saying that no living person combines more of the qualities necessary for the proper execution of this work than the veteran Ex-Senator, who has undertaken it.—National Intelligencer.
The compilation forms a complete manual, and will be valuable to all who seek to know the history and workings of our Government, from its infancy to the present time.—Democrat.
We feel assured that no one will ever regret adding this valuable work to his library.—Madison State Journal.
Every person who desires to be well read in the history of the country should possess a copy.—Dem. Press.
This abridgment becomes at once an immediate necessity to all men who are ambitious of being correctly informed in the civil history of our country.—Tribune.
Volume 1, now published, contains the debates during Washington's administration. They are of exceeding richness and value. The entire work will be necessary to the library of every scholar and statesman.—Rock Islander.
Persons desiring an agency for the above should make early application. Subscriptions received at our store.

"The works of Walter Scott have incorporated themselves with the thoughts and concerns of the whole civilized world for more than a quarter of a century, and have had a controlling influence over the age in which he lived. Who is there that can cast his looking back over a great portion of his life, does not find the genius of Scott administering to his pleasures, beguiling his cares, and soothing his lonely sorrows?"—[Washington Irving.

60,000 Acres of Valuable Lands for Sale!
THE UNDERSIGNED HAS 60,000 ACRES of very choice farming lands for sale, in the North-Western part of Illinois; all of which lie in the very best portion of the State, and are among the most valuable lands in the State for agricultural purposes, being accommodated with both Railroad and navigable water facilities, are well supplied with most excellent timber, good water, beautiful stone, both lime and free, which is easily worked, and almost all of which lands are underlaid with Stone Coal, which is very accessible.
To such as wish such property, I can say that they need not fear going into the wilderness to find these lands, as they lie in a region of country well inhabited by intelligent, enterprising people, with churches and school privileges.
I will sell these lands on such terms that no one should object. The title, I will have amply abstracted, so that no fears need be entertained on that account. There is perhaps no other list of lands of the same amount in Illinois, that comprises the many advantages of these lands. There are none of them, so remote from either Railroad or navigable rivers, but that a farmer could leave his farm and go to either railroad or water town and back with a wagon in the same day. For richness of soil and picturesque beauty of the country, it is unsurpassed.
The country is as healthy as any region of the United States, as the inhabitants' faces plainly show.
I have also a large number of city lots in Fulton City, Dixon, and a few in Cairo for sale. Fulton City has grown, in the last four years, from a population of about 100 to at present about 3,000. There is now established a daily line of new and fast running packet steamers from Fulton to St. Paul, which will still add to its business and growth very much.
A particular description of each quarter section of land will be furnished to persons wishing to purchase, which will enable them to go directly to such tracts as may suit their respective tastes.
My office is in the Dement House, Fulton City, Illinois, the terminus of the Air Line Railroad.

THE UNFORTUNATE'S GUIDE, GIVING directions where to obtain Medical aid, and containing astounding facts and thrilling and interesting information never before in print. By Doctor WM. THOMSON. Price twelve cents. Upon the receipt of four postage stamps, the book shall be forwarded free from observation, to any address in the United States or Canada. As it contains important private information for both sexes; the author received, through the Post Office during the last month from various parts of the country and city, over three thousand orders, for as many copies, evidently in the hand writing of females, but fictitiously signed, for the purpose of preserving their incognito. It is no "catch penny," but abounds in startling and interesting truths, extracted from the author's diary and case books, the result of thirty years' practice in all climates, in the treatment of diseases of the sexual organs, which gave him better opportunities than those possessed by the Roman Catholic Confessor, to look behind the curtain.

CHICAGO MEDICAL INFIRMARY,

THE NEW ERA.—MANKIND HAS FOR centuries past been suffering from the consequences of imprudence and self indulgence, which produce most injurious effects upon the constitution, destroying health, happiness and vigor. It is too frequently the case, that they neglect a slight disease until it becomes a fearful malady; or by visiting ignorant persons, who are not only base impostors, but very often their destroyers, it becomes impossible for them to recover those blessings of health, without which life becomes a burden. It is the duty of the afflicted not to be deterred by a false sense of fear and modesty, but to seek a regularly educated physician who has a thorough acquaintance with the most difficult and intricate department of the materia medica.

Dr. Hubbell having devoted his entire life to the study and treatment of private diseases in connection with the most distinguished Physicians, both in Europe and New York, and having treated the most aggravated cases with great success, takes pleasure in informing citizens of Chicago and vicinity, that he has discovered the most certain, speedy and effectual remedy for the cure and effectual eradication of

DISEASES OF IMPRUDENCE.

The peculiarity of my treatment consists, not in the selection of hitherto undiscovered remedies, but in the practical adaptation and application of those we already possess; to act directly upon the seminal vessels, and to impart tone with ut the production of irritation, to strengthen without inflaming or temporarily exciting the generative powers; to renovate by the exhibition of remedies which cure by the removal of the proximate causes of debility and disease, and so permanently restore the lost energies of the system—this is the mode of practice, which, in my hands, has been signally successful. There are individuals who indulge the fond, yet irrational hope, that nature is capable of resuming, without assistance, her lost powers; to such, I can only say, that the time which is wasted in this delay is precious and irreclaimable, and can only tend to perpetuate the habits of hopeless imbecility, and render impotence permanent. Many of these are prevented from applying for medical advice and assistance, through fear or dread of accidental exposure. In reference to this, it is proper to remark, that my general rule is to burn all correspondence or return it to the writers on the termination of their case. It would be a matter of no difficulty to me to detail the histories of hundreds of cases which have been treated most successfully, in which the worst developed forms of Gonorrhea, Syphilis, Sore Throat, Nodes, Tender Shin-bones, Pimples and Blotches on the Face, Arms and Body, Cutaneous Eruptions, Loss of Hair, Inflammation of the Eyes, Nervous and Generative Debility, Impotence, Sterility, Nocturnal Emissions, Seminal Weakness Indigestion and Constitutional Disease, have been exchanged for health, vigor and happiness.

That I have these in my power to bestow, numberless cases sufficiently attest. I make no pretensions but such as are borne out by the fullest testimonials; and of the authenticity of my testimonials, I am prepared to give every proof, short of a disclosure of the confidence entrusted to me. Accustomed from an early age to witness the various diseases which afflict mankind, and to watch their progress through a long course of professional study, in every sphere of life, from the humble abode of poverty to the mansion of the wealthy, and having ascertained, beyond a doubt, that the destructive habit of self-pollution was a frequent vice amongst our youth, I determined to select the generative system as my particular study, and to devote my whole attention to the alleviation of the diseases of this important function.

Since my residence in this city, I have met with numerous cases in which the suffering have unfortunately placed themselves under the charge of those who were ignorant of the first principles of medicine, and whom it has been only by the utmost care and attention I have been enabled to cure. To all such, who have been suffering under unsuccessful treatment, I would offer my services, guaranteeing that I can do all that is possible for experience and a thorough knowledge of diseases, in all stages and forms, to accomplish.

FEMALE DISEASES.—Ladies may visit the Dr. with perfect confidence, as he has become especially for their treatment, and can cure suppressions, leucorrhœa, and all irregularities speedily and effectually, without pain or inconvenience.

Having been long established in this city, he can appeal to all for a certificate of success, which should have great weight with the inexperienced.

Persons living at a distance, by giving a plain statement of their cases, will be attended to punctually, and medicines forwarded by express to all parts of the United States.

ONE OF THE PRINCIPAL AND GREAT causes of the high price of Brandy in this market is the limited source from which it is derived. Nine-tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, and at such advanced prices, and frequently in an adulterated state. In view of these facts, and for the purpose of securing a fair price for their product, a union of Brandy growers in France has been accomplished with the view of shipping to the United States.

NEW OSWEGO LINE.

WESTERN MERCHANTS AND FORwarders of Property and Merchandise to and from the West and North-west, are respectfully notified that the proprietor of the above line has effected such arrangements as will enable him to offer superior inducements to shippers of every description of Merchandise and Freight from New York to all ports on Lake Ontario and the Upper Lakes, with quicker dispatch and at as advantageous rates as any other line.

Upon the resumption of navigation, a line of A-1 Lake Boats, of the largest class, will be put on to transport freight from New York to Oswego without transhipment, and there connect with propellers and sail vessels on the Lakes. No property will be warehoused till it has reached its destination, as a vessel will always be in readiness at Oswego so that Freight may be transferred directly from the canal boats on their arrival.

The Proprietor will at all times endeavor to attain the quickest possible dispatch, and parties who have heretofore had their goods stowed away for weeks in a warehouse or depot in transitu, will find that such unwarrantable delays will be entirely avoided by the

NEW OSWEGO LINE.
